

**What is CCENT/CCNA, and why should I take this class?**

Great questions! The CCENT designation validates the ability to install, operate and troubleshoot a small enterprise branch network, including basic network security. You should take this class if you want the skills needed for an entry-level network support positions. CCENT certification is the first step toward achieving CCNA, which covers medium-size enterprise branch networks with more complex connections.

**What will I learn?**

**CCENT -**

➤ Networking fundamentals, LAN switching technologies, routing technologies, infrastructure services, and infrastructure maintenance.

**CCNA – Routing and Switching**

➤ LAN switching technologies, IPv4 and IPv6 routing technologies, WAN technologies, infrastructure services, and infrastructure maintenance.

**What are the prerequisites?**

CompTIA A+ certification is all you need to take this class. Depending on your experience, this prerequisite can be waived with instructor approval.

**Can I take this class online?**

Yes, you can. The class is designed to be offered online and is available 24/7. The best feature is the instructor assigned to you – on day 1 – for the duration of your class. They are 100% confident that if you follow their direction, you will become CCNA-certified. Instructors are available via text, phone, or email.

**How long will it take to finish?**

Many students complete the class sooner, but we give you six months so you can work at a pace that fits into your current commitments.

**Who should take this class?**

Anyone who believes computer networking is here to stay should take this class, and that pretty much means everyone.

**When does the class start?**

This class starts most Mondays. Register early to get the start date that works for you.
